## Question of the Week:

“How can I be more innovative with my TV campaign?”

## **Answer: Utilize advanced advertising solutions across multiscreen TV platforms**

### **Why is this important?**

Being agile in how to precisely target and engage audiences - using solutions like **audience-based buying, interactive & shoppable TV ads** and **generative AI** - allows marketers to quickly adapt to emerging technologies and gain a competitive advantage through fresh and innovative solutions.

### **Why does it matter in 2024?**

A variety of innovative multiscreen TV ad formats, technologies and applications designed to boost engagement and inspire consumer action are available for brands to explore, test and integrate into their video campaign strategies.

**A proactive approach ensures that marketers are not only keeping pace with the current marketplace but also anticipating future shifts, securing their position as industry leaders.**

**Interactive and shoppable TV ads** are transforming viewer engagement and action

# Innovative ad formats are enabling deeper audience engagement across screens via remote controls and connected devices

- ▶ The **proliferation of streaming** has made innovative ads more commonplace and therefore more valuable to marketers as they look for greater opportunities to engage with and measure audiences

## Examples of Ad Formats with Exciting & Innovative Ways to Quantify Engagement

### Interactive

Enables audiences to take immediate action with a brand by actively participating with an ad

#### Example

Audiences can “choose their own adventure” with an ad, share their brand sentiment via an in-ad survey, or download an app via a QR code.

### Shoppable

Enables audiences to make a purchase directly through an advertisement or piece of content

#### Example

Shop the product(s) of a brand used directly in content such as cookware on a cooking show or clothing worn by your favorite sitcom character via a remote control, or by scanning a QR code

### Dynamic Placement

Enables audiences to connect with a brand in a contextual environment through the placement of ads directly within content in a targetable and unobtrusive way

#### Example

Brand logo being placed on a score board during a sports telecast or a beverage being consumed by their favorite sitcom character.

# Shoppable TV ads can shorten the path to purchase for consumers by putting a brand's digital platform directly in front of viewers

## Three different categories of shoppable ad experiences

### Shoppable commercials

Video ads that air during traditional ad breaks which **include a method, such as a scannable QR code, for viewers to engage with** to get more information or to purchase a product

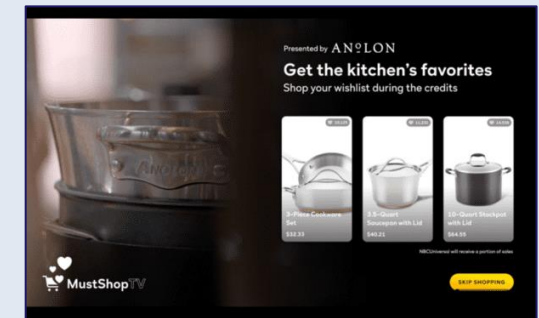

### Direct-selling segments

Interactive ads that are **integrated into traditional programming to direct viewers towards specific products**, such as cookware being promoted during a cooking segment

### Shoppable television shows

The ability to purchase is **seamlessly woven into programming by integrating products into shows** and then letting viewers know how they can purchase them

# As marketers embrace innovative strategies, remember these tips

- ▶ ***Innovate.*** As marketers aim to captivate audiences and optimize their campaigns to drive business growth, utilizing creative targeting solutions and ad formats are valuable strategies to build a competitive advantage.
- ▶ ***Advocate.*** By partnering with trusted media partners, marketers can ensure that modern campaigns run where they are planned to and in front of the right audience.
- ▶ ***Inquire.*** Implementing and testing new strategies can be complex. Demand transparent answers from media partners to ensure you get what you paid for.

# When embracing innovative strategies, marketers need to uphold audience trust, keep media partners accountable and demand full transparency

## Quality of Environment

### Uphold Audience Trust and Standards:

- ĩ The ad experience should be premium like the content around it – with quality audio and video and relevant creative.
- ĩ Partners should use programmatic tools that are built for premium transactions vs. legacy display, ensuring transactions are rooted in trust, and delivery isn't compromised.
- ĩ Ad quantity should be in line with content length, with minimal disruption, low latency, proportional ad breaks, and carefully crafted ad loads.

## Brand Safety

### Hold Partners Accountable:

- ĩ Partners should meet brand requirements, uphold category exclusivity, and maintain competitive separation.
- ĩ Partners should ensure no placements with objectionable content – or objectionable audiences.
- ĩ Legitimate verification processes should be in place to understand what is being bought and sold.

## Transparency & Legitimacy

### Know What You Are Buying:

- ĩ Creative should run where it is planned to, in the right context.
- ĩ Buyers & sellers should agree on the kind of impressions purchased – ads should run adjacent to or within the right content and be viewed by real people. They should not run on MFA sites or be delivered to bots.
- ĩ Ads should be viewable, not out-streamed, muted, auto-played, or hidden. Non-viewable impressions should be removed from reporting.
